

Mayson Bros Ltd

Sustainability Policy

Mayson Bros Ltd is committed to promoting sustainability. Concern for the environment and promoting a broader sustainability agenda are integral to Mayson Bros professional activities and the management of the organisation. We aim to follow and to promote good sustainability practice, to reduce the environmental impacts of all our activities and to help clients and partners to do the same.

Principles

- To comply with, and exceed where practicable, all applicable legislation, regulations and codes of practice.
- To ensure all environmental risks are assessed, managed and controlled.
- To integrate sustainability considerations into all our business decisions.
- To ensure that all staff are fully aware of our Sustainability Policy and are committed to implementing and improving it.
- To minimise the impact on sustainability of all office and transportation activities.
- To make clients and suppliers aware of our Sustainability Policy and encourage them to adopt sound sustainable management practices.
- To review, annually report, and to continually strive to improve our sustainability performance.

Practical - In order to put these principles into practice we will:

Travel , meetings and transport

- Ensure that all company vehicles are tracked and shortest routes adhered to. Fuel consumption is regularly monitored. .
- Crew bus is used for delivering personnel to larger site projects.
- Walk or cycle where applicable to attend meetings, site visits etc unless impracticable or cost prohibitive.
- All plant and machinery use bio-degradable lubricants.

Purchase of equipment and consumption of resources

- Minimise our use of paper and other office consumables, for example by double-siding all paper used, and identifying opportunities to reduce waste.
- As far as possible arrange for the re-use or recycling of office waste, including paper, computer supplies and redundant equipment.
- Reduce the energy consumption of office equipment by purchasing energy efficient equipment and good housekeeping.
- Ensure that all timber is recycled and well-managed and are Forest Stewardship Council (FSC) approved.
- On site skips are permanently positioned for ease of recycling .
